Is Your Partnership Working?

ACS Launces New Partnership Assessment Tool

What's in a partnership?

As Henry Ford said, "Coming together is a beginning; keeping together is progress; working together is success."

Whether personal or professional, partnerships can be a powerful way of working together to ultimately create greater impact. *Successful* partnerships require intentionality, ongoing communication, and regular check-ups to assess pressure points, identify areas for improvement, and ultimately decide whether the partnership is worth continuing or if it's time to move on.

Whether you are considering a new collaboration or evaluating an existing one, assessing alignment and effectiveness ensures that partnerships remain strategic, sustainable, and mutually beneficial. The [ACS Partnership Assessment Rubric](#) serves as a discussion tool rather than a rigid scoring system, providing a structured framework for reflection.
